SITE SUMMARY

RAKVERE

Rakvere, Estonia

Rakvere is a compact city located ~100km southeast of the capital of Estonia, Tallinn and is easily accessible by bus, train or car from Tallinn.

The track is located 2km from the city centre of Rakvere.

Rakvere has many attractions besides the RC track, such as the Rakvere Castle and the Tarvas Statue.

The city also has many pharmacies, a hospital and emergency department for urgent medical issues, which is open 24/7.

Emergency phone line: 112

RAKVERE

About the track

At the end of 2023 we started building the facility with the goal of bringing a modern and rule compliant racetrack to Rakvere, Estonia. In July, 2024 we had our first national competition on this track.

Today we have hosted several national and international competitions on this track with guests from around Europe.

The layout was designed by Pawel Hert from Race Stars. The track is made of oiled clay, it has high traction and it can be ridden on shortly after rain.

Tracks' overall length can be 131 to 355 meters depending on the layout with the width of 4 to 5 meters.
